**What belongs together grows together: two become one!**

Dear business partner,

We are pleased to inform you that the merger of the companies

**METRA Energie-Messtechnik GmbH**

with the

**Bopp & Reuther Messtechnik GmbH**

as the absorbing company has been completed as of 11.01.2021. Bopp & Reuther Messtechnik GmbH thus supplements its existing product portfolio with energy measurement technology (thermal energy, steam and compressed air).

Strategic considerations have led us to the conviction to bundle comprehensive know-how and to use internal synergies from these resources. The resulting improvement in expertise from both areas and a corresponding increase in efficiency put us in a position to be able to serve the increasingly complex tasks related to various applications of the measurement technology market from a single source in a customer-oriented manner.

Due to this consolidation, we are better positioned for the benefit of our customers and business partners and can further increase our performance and service quality.

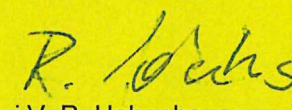

Your existing contracts and agreements will remain unchanged and will be transferred to Bopp & Reuther Messtechnik GmbH.

If you have any questions, please do not hesitate to contact us. We look forward to continuing our cooperation in a spirit of trust and partnership.

Yours sincerely from Speyer,  
Bopp & Reuther Messtechnik GmbH

  
Dr. J.-Ph. Herzog  
Managing Director

  
ppa. C. Bresser  
Finance Director

  
i.V. R. Hohenhaus  
Director of Sales
